SECTION A - SUPPLEMENTAL INFORMATION

The purpose of this amendment is to:

a. Extend the closing date to 23 Mar 2004 at 3:45 p.m. local time.

b. Add clause CS6500, Statement of Work - Stable Base Mylars

The following clarification/information is provided:

c. Table VII was changed from VII to XI with SC-X16454 revision C. In SC-X16454 revision C when references are made to table VII table XI should be utilized. This is evident in the following paragraphs: 4.1.2, 4.1.3, 4.1.3.1, 4.1.3.1.1.1, and 4.1.3.1.2.

d. The configuration for installed interface configuration for its intended application or equivalent is Circuit Card Assembly, part number 12549800 mounted inside of the Tank Commanders Panel (TCP) Assembly, part number 12549797. The TCP will not be provided as Government Furnished Material (GFM). The other option would be to build a test stand that simulates the card mounted in the TCP. Attached are drawings 12549797, 12324201,12344033,12324179 and 12324191 that can be utilized.

e. Drawing 12931089 Rev B is available from Texas Instruments (cage01295) part number JM38510/10902BCA (drawing Is attached).

f. Find No. 02: may be obtained from BTC Electronics (63365).

g. Find No. 25: Utilize TI (cage 01295) PN JM38510-10902BCA. It is available online.

h. Find No. 26: Utilize TI part number SNJ5432J. It is available online.

i. Find No. 27: Utilize National Semiconductor (cage 27014) part number DM5404J/8183. It is available online.

j. Find No. 29: Utilize National PN DM54LS279J/883. It is available.

k. Find No. 30: Utilize M38510/31402BEA. PER QML-38535-17, 54LS221 from TI is the approved source and PN for M38510/31402BEA.

l. Find No. 31: Utilize National (cage 27014) part number DM5408J/883.

m. Drawing 12549800 Rev K is attached.

The following questions were asked:

n. On the Soldering Requirements per 11655194, is a Category C legacy MIL-STD-2000A Certification still valid to permit re-training to the standard? Or, in the alternative, would J-STD-001C Class 3 be preferred? J-STD-001C would be preferred as MIL-STD-2000A is cancelled without replacement.

o. What is the material thickness of part number 12273300 (the heat sink regulator)?

Drawing 12549801 calls out in note two:

2. Material

Plastic sheet, laminated

Type GNF0125C2/C2AIC

Per MIL-P-139429/4.

All material that is MIL-P-139429/4 must also meet the requirements of MIL-P-139429. Per MIL-P-139429 Para 1.2.1.1.2 the 0125 in the note 2 material designation of drawing 12549801 represents a base material thickness of 125 ten thousandths of an inch or .0125 in.

All other terms and conditions remain unchanged.
